Zytexx International Ltd (Rate this company)

CATEGORY: DECK PROTECTION

COMPANY INFORMATION

Zytexx has become the industry standard in resilient, easy-clean coatings for Paint, Gel-Coat and Glass having coated over 150 vessels in the last 10 years.

Zytexx is a class of coating made possible by advances in ceramic chemistry. Longevity, high gloss and easy cleaning are the standout features of our flagship Zytexx clear-coat.

Salts, pollutants, acid rain streaks, oils and diesel soot are easily removed from Zytexx. Our hard, slick, abrasion-resistant finish doesn't wear down like disappointing waxes, polishes and polymers.

Zytexx cuts your cleaning time down to a fraction, by preventing diesel soot from permanently staining polyurethane paints, you can avoid unsightly and expensive damage and eliminate the need to tediously polish out these defects. With its hard, scratch-resistant properties, fenders and hawsers mark Zytexx far less than paint. Keeping what is important, protected!
