

# WHY CHOOSE US?

# TENDERS

## WHY BUY TENDERS FROM US

We guarantee that you will not pay more for your tender than if you went to the manufacturer directly. In fact, in most cases you will pay significantly less and receive immeasurable added value.

## WHAT WE DO

Based on your requirements, restrictions and budget we will propose a number of options for you to consider and compare. We can arrange yard visits, sea trials and assist in the decision making process from an independent point of view. Once the vessel has been ordered we continue to add value by project managing the build where required, producing regular photo reports following yard visits and inspecting the vessel before delivery.

We will also be on hand for sea trials and delivery and arrange shipping at preferential rates anywhere in the world. After delivery we will manage any warranty issues and provide spare parts and training as and when required. Alternatively, if you are after a completely custom vessel our designers can work with you to design and build your perfect boat.

# TOYS

## WHY BUY TOYS FROM US

Superyacht Tenders and Toys are dealers for all the major yacht/watersport toy brands and can offer significant savings off RRP prices. Whether it's a new wakeboard, a full overhaul of your toy inventory or a new build yacht starting from scratch we can offer everything you need from under one roof. We can group items together for shipping thereby making additional savings and our support extends beyond delivery to warranty and after sales.

## CHARTER / HIRE

Superyacht Tenders and Toys have a number of tenders available to charter for anything from a day to an entire season. Vessels can be shipped anywhere in the world. All the larger charter favourite toys are also available to rent with instruction where relevant. We can fly a trainer out to the yacht either to carry out training with key crew or to spend a week training guests and freeing up the crew's time.

## SHIPPING

Due to the volume of items we are shipping around the world on a daily basis we can offer our clients preferential rates for shipping. We will handle all aspects – from finding the best rate to handling customs and importation to deliver your items directly to the back of the boat. We can also arrange collections from the yacht for old kit, warranty returns and brokerage sales.
