Home of the Original Oral Preparation Course

JPMA are renowned for our well designed and highly successful Deck and Engineering oral preparation courses and pre-course prep packs, set up by the late Captain John Percival.

We have taught thousands of oral prep students since the late 90's and our oral prep instructors have continued John's legacy, resulting in continued high pass rates on first attempt.

Book all of your modules at **JPMA** and receive a **15% discount** on your Oral Prep course fee
