

liveQ

LiveQ provides a complete live overview of all of your favorite TV Stations on all mobile devices and TV Screens on board.

Live TV channels and recorded content can be displayed in a mosaic style grid for an easy overview of your favourite and most watched channels. This provides quick and easy access to your top TV channels without having to search through every one available.

- Select a channel to watch on device
- Swipe to watch on a TV screen
- Roam and watch anywhere on board
- Only see the stations you really need

Touch to enlarge

- Instantly see your favorite TV stations
- Watch a TV channel on a mobile device
- Move from area to area without losing the TV station
- Swipe to next page to see more channels
- No need to browse through channel logos or program guide

liveQ

Swipe to watch on TV screen

- Automatic area-recognition - tablet recognizes on board room / area whilst roaming
- Swipe up from tablet to watch the same / chosen channel on the TV screen in the area you are in or have moved in to

Key Features

- Channel name plus current and next program shown for each channel in mosaic mode
- Option to only display most relevant / key channels - beneficial for equipment space and redundancy
- Channel setup and arrangement managed per page, e.g. 9 ch 10 ch, 12 ch etc
- Swipe down to move to next page and display more channels
- Categorization of TV channels e.g. News, Sports, Children, Music
- Safeguard parental control by only showing approved stations within categorized pages
- News, Yacht information and music can also be integrated within the mosaic page
- Flexibility - On shore installation allows for global availability of TV stations
