COMPANY INFORMATION

Over many years, GUIDI has widely gained the market of leisure and work boats and has become a very important point of reference for people who work in this field of activity. From its very beginning the Company made a choice, and time proved it was the right choice: focus on quality, not on price, and be competitive thanks to care and precision in design and manufacturing. Really unique WATER STRAINERS, VALVES and WATER INTAKES are the results of that choice.

GUIDI's mission: ensure its Customers that their boating dream will be long-lasting and safe.
